

I am writing as a concerned citizen, regarding recent activities of Sinclair Broadcasting, specifically their strong-arm tactics to force their affiliates to preempt regular programming in order to air an anti-Kerry piece. Having worked in television since 1970, I am well aware of the laws and regulations regarding public airwave use and licensing of broadcast facilities. Sinclair's politicking is not only unethical; it is illegal. I do hope you will consider their actions when their license comes due for renewal.

Thank you,
